SKILLS

- **Languages:** Java, C#, Dart, C, JavaScript
- **Framework:** ASP.NET Core, Flutter, Springboot
- ReactJS, NodeJS
- **Database:** Microsoft SQL Server, MySQL, MongoDB
- **Tools:** Git, GitHub, Postman

CERTIFICATION

- B1 Level Certificate

EDUCATION

GPA: 3.26 / 4.0

Major: Software Engineering
Ho Chi Minh City University of Technology (HUTECH) (2022 - 2026)

INTRODUCE

Graduated with a major in Software Engineering, possessing a progressive mindset, strong teamwork skills, and a proactive approach in proposing ideas to contribute to shared goals. Seeking a Backend Developer position to dedicate my capabilities to real-world projects, while continuously cultivating new technologies to bring long-term value to the organization.

PROJECTS

E-learning Website

03/2025 - 09/2025

Role: Backend, Frontend

Technologies: C#, ASP.NET Core, SQL Server, Bootstrap.

- Built an authorization system (Admin, Teacher, User), developed course management functions (CRUD), and implemented content moderation.
- Integrated MoMo payment gateway and developed advanced interactive features including Real-time Chat and Livestream rooms.
- Took charge of Frontend design and programming, optimizing a smooth user experience (UI/UX) for the entire functional flow.

Online Movie Ticketing Website

2026 - 2026

Role: Backend

Technologies: Java, Spring Boot, Google Maps API, MySQL.

- Designed core business processing flows: ticket booking, transaction history management, and movie review/rating system.
- Digitalized the control process with a feature that automatically generates QR Codes for e-tickets upon successful payment.
- Integrated Google Maps API to calculate coordinates and suggest the nearest cinema, and utilized the Gemini API to build an AI Chatbot for user support.

ACTIVITIES

IT Helpdesk Intern at WEB-PRO (VIETNAM) CO., LTD.
